SKILLS

Javascript, AngularJS, Node.js, HTML, CSS, SASS, SQL, Git
Project Management, Software Sales

RELEVANT EXPERIENCE

The Iron Yard | Atlanta, GA

Jan 2017 – April 2017

Front-end Engineering Student

Immersed in Javascript language fluency, object-oriented programming, and project-based learning. Built a dozen web apps during this 12-week coding bootcamp.

- Summer Break Final Project– Developed an application to help teenagers find jobs, volunteer and educational opportunities during the summer. Included separate home, detail, and administrator pages.
 - Built Node.js back end and 25 middleware-protected routes to PostGres database.Website: <https://tiy-mariefilbey-summerbreakfront.surge.sh>
Code: github.com/mariefilbs/summer-break-front
- Artem's Restaurant – Created home page for restaurant and reservations input form. Made API calls to Flickr and Heroku to dynamically populate current news, menu list, and food images onto page.
 - Learned how to create pull requests on GitHub and to resolve merge conflicts.Website: <https://tiy-houseofkal-el-group-project-cafe.surge.sh>
Code: github.com/artem-alek/group-project-cafe
- Kurt's Magic Jukebox – Developed a search page for playing music which takes queries by artist or song via SoundCloud API, displays search results' album artwork, then plays song of album clicked.
 - Learned how to make async client API request via Ajax. Used JavaScript functionality to search and build page dynamically via template literals.Website: tiy-kurt-soundcloud.surge.sh
Code: github.com/rkwyckoff/soundcloud

East Cobb Renovators | Atlanta, GA

2001 – 2016
